POLICE COURT.  
Blue Monday Was Appropriately Observed by the Bluecoat Club.

Yesterday was a good day—in some respects. It was good for ducks—and for the School Fund. But it was a little expensive and troublesome to several citizens.

It cost Shellback \$1 at cetera for a plain booth.

T. Emmons went "Shell" \$4 better.

Ruth Ruels, a shable street surveyor from Ripley, was invited to measure the distance between this town and that.

Charles Parker planked down \$3 and costs for a d. and d.

Hard Leughrig, whose name is kept standing in all well regulated printing offices, was fined \$35 and costs and given thirty days in jail for a breach of the peace.

Elaine Clark, colored, was drunk and noisy, and paid \$3 and costs.

Tom Higgins had a bigger load and made more noise than Kiste, and the Judge thought \$3 and costs about the right sum for Tom's fun.

Senator Goebel of Covington was in the city yesterday.

Colonel S. N. Meyer was up from Cincinnati yesterday.

Rev. Stratton of Tolleboro attended the five meetings yesterday.

Colonel Henry Crawford of Dover was a caller on THE LEDGER yesterday.

Hon. Charles B. Poyntz has been at the Gibson House, Cincinnati, for several days.

J. A. Walton, Postmaster at Germantown, was a caller on THE LEDGER yesterday.

Miss Rosa Craig of Tolleboro returned home Saturday after a week's visit in Mayville.

Colonel Charles Wheeler of Mayville was a pleasant caller on THE LEDGER yesterday.

Mrs. Nettie Ross Hill of Indianapolis is the pleasant guest of Mrs. F. B. Collins. She is the daughter of A. D. Ross, formerly of Fleming county.

THERE are now three aspirants for the Railroad Commissionership from this District—Charles B. Poyntz of this city, Green R. Keller of Carlisle and A. W. Hamilton of Mt. Sterling.

It seems strange, says *The Capital*, but is nevertheless true, that 61 per cent. of the children listed upon the last census taken in Frankfurt are attending the Public Schools. This is the largest percentage of any city in America. Boston comes next with 56 per cent.

The child is now in the hospital in Frankfurt after suffering from his leg and leg, cutting them off. Boys will never quit this dangerous practice until it is too late.

Ladies, do not forget the Military Opening at Charles Wheeler's Store at Mayville April 12th, 13th and 14th. Corps styles displayed and prices in keeping with the times.

Increased Facilities.  
In order to provide perfect accommodation for its increased travel, the Chesapeake and Ohio Railway has added an extra coach between Cincinnati and Huntington to the Atlantic Express train No. 3, Eastbound, and the F. & V. train No. 3, Westbound.

SUPERIOR COURT.  
The Judges May Hold Over Under the New Constitution.

The terms of the Judges of the Superior Court expire in June, 1894, according to the section of the Constitution abolishing the old and the new Constitution provides for a seven-Judge in place of a four-Judge Appellate Court, which is also to supplement the Superior Court.

The new Judges of the Court of Appeals do not take their seats until January 1895, hence there is a vacancy in the Court from June to January.

In many cases the Constitution extended the terms of officers until their successors were elected, and there is also a provision stating that all officers shall hold their offices until their successors are elected and qualified.

It is learned in a semi-official way that this matter has been discussed by the Court, and it is said on good authority that the Superior Court will hold office from June to January under the above section of the Constitution, and until seven Judge Appellate tribunal qualifies.

WICKED WILLIE.  
Outsiders Want to Help Kentucky Retire Breckinridge.

In the midst of a session of the New York Methodist Episcopal Conference Rev. E. L. Hofacker arose and offered the following resolution:

Resolved, That we approve of the prosecution and conviction of J. Y. McKane and the political corruptionists of Graves.

That we demand in the interests of religion, morality and decency that W. C. Ford Leughrig, the self confessed libertine, be ejected from the House of Representatives, believing him to be unfit to represent the people in the highest law-making body in the land.

That we will welcome his expulsion from Congress as a contribution of our abhorrence of his depraved life, and the only statement that can be made to that effect is that which he has so grossly outraged.

The resolution was referred to a committee of five.

DR. WILLIAM R. HEPLIN will return to Cincinnati in a short time to resume an operation. It will be recalled that one of his legs was terribly lacerated by an accident at Peñon Ross' mills some years ago. The wound has never healed over, and while it causes no pain it requires constant dressing. He will try the process of skin grafting, and has full faith in its success.

MARTIN COMMINS POSEY of the Franklin Circuit Court has filed his report in the suit of the Commonwealth against the sureties of ex-Treasurer Tate. The report is considered a victory for the state, though the recovery of any part of the sum claimed depends on the decision of several points of law raised by the report. The state sued for \$162,000, but the utmost it can recover under the findings of the Commissioner is \$74,996.99.

The seduction and breach of promise suit of Sallie Moore against Lawrence Croce, a leading business man of Marion, for \$10,000, was begun in the Circuit Court Saturday.

The testimony is worse, if anything, than that of the Pollard-Breckinridge case. Miss Moore is the young woman who gained such notoriety a year ago by suddenly disappearing from her sister's home in New York City and wandering since August to city. She is a beautiful woman and the daughter of a Methodist Minister.

THOMAS GRAY, a Deacon in the Eddy Creek Baptist Church in Southern Kentucky, has been excluded from membership for professing and teaching sanctification. Gray claims he has no known sin or tainted his blood since August 1883, and that his flesh was purified and could not sin. After specifying the exact date, the holy Deacon could have named the day of the week and the hour of the day when he became so much.

His testimony is worse, if anything, than that of the Pollard-Breckinridge case. Miss Moore is the young woman who gained such notoriety a year ago by suddenly disappearing from her sister's home in New York City and wandering since August to city. She is a beautiful woman and the daughter of a Methodist Minister.

THE Tug River Coal and Salt Company entered suit in the Circuit Court at Louisville against the Kentucky and Cincinnati Natural Gas Fuel Company for judgment for \$278,000, and took out an attachment on the ground of removal of the suit from the latter place. The claim is based on a contract between the parties, by which the plaintiff leased a tract of 30,000 acres in Martin county, Ky. It is alleged only \$1,800 has been paid on the contract, and that was interest. The agreement between the parties involved the transfer of \$230,000 of stock by the defendant at par value to the plaintiff.

# THEATER FIRE.

## Nine Brave Firemen Go to Their Death at Milwaukee.

Without Warning the Roof Lets Them Drop Through

Into the Seething, Roaring Flames Below—The Famous Davidson Play-House and Hotel Destroyed—The Lilliputian Theatrical Troupe Lost Heavily.

MILWAUKEE, Wis., April 10.—At 4:30 o'clock Monday morning flames were seen breaking out from the roof of the Davidson theater and hotel, a structure valued at \$300,000. An alarm was promptly responded to, but not until the roof was a sheet of flames. Immediately on the arrival of the firemen ladders were run up and the men rushed to the roof, six stories from the ground. In doing so, Ollie Eason, one of the men, slipped and fell to the ground, being killed by the fall. All the men from engine-house No. 4 were directed to the roof. Eason was the first right over the stage, where the fire was the worst. These firemen and others took their stations and began work, when, without warning, the roof under the men gave way, precipitating nine of the men 80 feet below into the fire on the large stage of the theater.

All of them were either killed by the fall or burned or suffocated to death. The following are missing, and it is certain they were burned to death or killed in the fall:

George Jansen, Co. No. 1; Assistant Chief August Jansen; Thomas Morgan, Co. 4; Frank McGeehan, Co. 4; Fred O'Neill; Crowley, Co. 14; Capt. Linehan, Co. 4.

The following firemen went down with the roof and were rescued. They were taken to the Emergency hospital, Lieut. Curran, of Company 1, Central Fire station, probably fatally injured; Fred Marsh, Co. 4, severely injured; crushed; Fred Schroeder, John Ye, pipeman No. 4, burned and back hurt.

The large building was used as a theater on the roof, which was not damaged by the flames. The hotel portion was well filled with guests, but they all were warned in time and most of them escaped. The injury, though a panic prevailed, many of them escaping in hastily-made ladders or scarcely none at all, to the Schiller House, across the street.

The fire started, apparently, on the stage under the roof. The stage was a very large one. In height it was about 10 feet from the floor to the top of the fire made great progress in the early scene and was a perfect oven of flames when discovered. The Lilliputian troupe, however, escaped, the scenery, were filling a two weeks' engagement in a "Trip to Mars" in the house and has for the engagement been given the house and the scenery, which was large, and that of the Lilliputians, gave the flames unusual advantage and the thing went like lightning.

Treasurer Rodriguez, of the Davidson, says that the loss of the Lilliputian Co., all told, can not fall below \$100,000. The Davidson is a new building, and were stockholders in the theater company, lived here formerly, but now live in Chicago.

Pipeman Ye, who was in the Emergency Hospital, describes his fall as follows: "We were all on the roof of the building—No. 4 men—when she sank with the roof. I saw me and others go down in the ruins, and the quick work of the relief party that came after me. When I struck the bottom I was crushed down by the weight of the roof and I wriggle around to get loose. There were flames all around me and plenty of smoke. My clothing was tangled up and I began to feel as if I began to strip off my clothes and that's the way I got loose—undressing myself in the flames, with the ruins all over me and the fire all around me, but it was a close rub for me, and if my back is not broke I may be all right. My head is badly burned and cut. How did I finally reach a place of safety? Why, the boys got a line to me, I made it fast and was yanked over a wall into the alley or somewhere."

# SENATOR HILL SPEAKS

In Opposition to the Wilson Bill on It Stands With the Income Tax.

WASHINGTON, April 10.—The pending tariff bill being introduced by Senator Hill (R., N.Y.) according to notice given, addressed the senate upon the subject. His opening speech was a long one, indicating the aggressive tone in regard to the administration which pervaded the whole speech. He said: "The political party in power commenced in 1890 and eliminated in 1892 was an emphatic expression of the popular will in behalf of governmental policy. It was a policy of reform, men, were largely the issues involved in that movement. The enforcement of these democratic policies developed upon the political party in power. It is not denied that some mistakes have occurred. Our foreign policy, especially that relating to Hawaii, it must be admitted, has not met the expectations of the people. A sense of humiliation prevailed when the project for the restoration of a deposed monarchy was unfilled by the administration, and gratification was used when its abandonment or failure was announced, influenced largely by the aroused public opinion of the day. This blunder, Mr. Hill considered, was the natural consequence of placing the department of state in charge of a republican administration, and estimable though he might be whose public services have always been in opposition to the democratic party, and whose administration upon the disputed public questions of the day, if changed at all, are certainly coincided.

Mr. Hill expressed regret that the president should not have been able to find in his own party, some one who honored statesman in whom he saw his party could have placed confidence, one of democratic instincts and training, whose management of foreign affairs would have reflected credit upon the country, and would have avoided the promulgation of that American policy which was sought to be forced upon an unwilling people. He said that the administration of the present administration of government afforded scant ground for just criticism.

MILL EXPLOSION.

Three Killed and Three Others Fatally Injured.

CLAY CITY, Ind., April 9.—The boiler in a large saw mill at Lancaster, a small village ten miles east of this city, exploded, killing three men and injuring three others. The explosion occurred at 10 o'clock, and the boiler was instantly killed and John Shepherd, Charles Schaffer and Louis Weller were killed. It is thought that Shepherd was killed by the explosion. The mill was completely demolished by the explosion. The boiler was a 100-horse power boiler, and the explosion was caused by the engine which allowed the water in the boiler to run too low. The damage will reach \$10,000, and this will be the greatest loss of life in the worst calamity which has occurred in this section for years.

His Mind a Blank.

CHICAGO, April 10.—William Sturges, plaintiff in the suit to recover \$100,000 from John W. Carroll and others, pending before Judge Tuley, has at his Hyde Park Hotel, his mind a blank. His fortune is at stake. He refused to answer questions over his business interests have shattered his reason. Physicians who attended Mr. Sturges have given their judgment that he is insane, and his mental faculties. All details even of the suit, which has pressed on his mind for years, has been erased from his memory. Mr. Sturges is 70 years old.

A Redneck Case Preferred.

WASHINGTON, April 9.—The agricultural department will issue in a few days a circular on the subject of California, considered the most serious parasite with which California farmers have to contend. Active measures are being taken by the department to destroy the insect in all the localities where it may be found. Great damage to the fruit-growing industry has been done by the pest, and if the scale is allowed to spread.

All Quiet, But Dubious.

CONNEKTICUT, Pa., April 9.—All the work closed down by the strikers in the operation of the Cambria Iron Co. of the Cambria Iron Co., Hill Farm of the Dunbar Furnace Co. and Loomis's Nos. 1 and 2 of the McClure Co. The peace which reigned Monday throughout the region is no indication that the strikers have given up. Many operators admit that it is an ominous silence.

Famous Criminal Lawyer Dead.

NEW YORK, April 9.—Anton Ruschick, formerly a packer in a cigar factory, was found dead in a vacant room on the third floor of 44 East Seventh street, where he used to live. He had committed suicide, having hung himself from a beam over the door.

WASHINGTON, April 9.—Monday was the beginning of the second month of the Pollard-Hill case. Judge Bradley, in his decision with reference to the prayers for instruction to the jury, said that Col. Beckridge must have been married to the wife he was married to.

# PANIC

## At the Von Humboldt Public School, Chicago.

One of the Scholars Killed, and Another Receives Fatal Injuries.

Some Fifteen Others Are Hurt More or Less Seriously—The Stampedede Stopped by the Presence of Mind of Principal W. A. Barthol.

CHICAGO, April 10.—One pupil was killed, a fatal injury, and other boys were injured during a panic at the Von Humboldt public school. The mad rush of the children was caused by the bursting of a steam coil on the radiator in one of the rooms, and the subsequent crying of "fire" by the frightened boys and girls. The dead pupil is Daniel Gunstein, 11 years old, who lived with his parents at 792 Dania avenue. He was trampled under the feet of the panic-stricken throng, and expired while being taken to St. Elizabeth's hospital. The fatally injured pupil is Andrew Anderson, 10 years old, whose home is at 710 Rockwell street.

Following are the most seriously injured, all of whom will recover: Ben Harris, 7 years old, 739 Maplewood avenue; Martha Schaffer, 7 years old, 739 Washington street; Peter Schaffer, 7 years old, 739 Washington street; Della Schaffer, daughter of fire marshal, 5 years old, 706 Fairfield avenue; William Barthol, 8 years old, 823 Washington avenue; Siguel, 10 years old, 928 Maplewood avenue.

The injured were trampled on and bruised and cut. Most of them were taken from the school in an unconscious condition to the hospital and admitted to the hospital. There were 176 pupils in the school building. The stampedede was partly stopped by the presence of mind of W. A. Barthol, principal, and those teachers whose pupils had not already rushed from the rooms. They locked the doors and kept the frightened children in the room until the panic was over. This quick action no doubt saved the lives of scores of the pupils, as the panic had spread to every room in the building. All the injured fell at the bottom of the stairway, which was a narrow one used by the teachers.

There were heartrending scenes when the mothers and other relatives of the pupils came rushing, frantic with fright, to the building, fearful for the safety of their children. The excitement and manifestations of grief added to the screaming of the pupils and the clanging of fire apparatus, panic and confusion, and it was a scene of confusion and terror, which quickly brought to the corner an immense multitude of people. When the frightened boys and girls saw the exits, and realized that the danger was over, they rushed back into the building and carried out the girls and little boys.

Female Clerk a Heroine.

COLUMBUS, O., April 10.—Mr. E. A. Archer, of the railroad commissioners' office, succeeded in locating the little heroine inquired about by a French life insurance company. She was a girl, 10 years old, named Marie, who lived at 1011 Grove, Ind. She was near the tracks of the railroad last September, and discovering the bridge on the river, she jumped over it, and was saved by the engineer who saw her and warned her red skirt. The society wants to present her with a medal, and wrote to Gov. McKinley. He referred the matter to the railroad commissioners. He was given her address by the girl's aunt, Mrs. Arthur Owens, of this city.
